

PAUL U'REN

CFO/Operations Manager

CAREER HIGHLIGHTS

Years of Construction Experience - 42

A seasoned executive with over forty years in the construction industry, Paul U'Ren, part owner and CFO of Everstrong Construction, Inc., possesses an extensive knowledge of all aspects of construction. In addition to office and job site experience, Paul keeps up to date on building codes and environmental issues through continuing education courses as related to his Minnesota Residential Contractors License and by attending conferences and other learning opportunities. Paul has an eye for great design, excels at problem solving, and has a knack for getting the most building for the budget. Complex coordination between clients, vendors, subcontractors, labor, project professionals and weather is Paul's forte. His ingenuity, creativity, dedication to sound construction practices as well as his unique ability to make negatives positive make him a pleasure to work with and for.

ROLE AT EVERSTRONG CONSTRUCTION

Years with Everstrong Construction – 26

As CFO and Operations Manager for Everstrong Construction, Paul is involved in all facets of the construction industry. He is involved in every phase of a project from working with the client, coordinating with the design team, budget development, coordinating with the job site foreman in the construction phase, to final closeout and training. In addition to project management, Paul also oversees the management of the company's accounting and human resource departments.
